Don't forget to collect a booklet from the Art Department to complete your tasks in!

1. Visit an Art Gallery
Look at the works of Art in the gallery. While you're there choose from one of the following Visual Elements: Line, Tone, Colour, Pattern, Texture, Shape and Form.
Now you should take photographs of an artist's work that you think links to your chosen word, stick photographs of your visit in your booklet. (Don't forget to sketch the work in the gallery!)

4. Take a line for a walk...
Make a drawing out of something other than a pencil eg. Wire, rope, string, stitch, sand... what else can you think of? Make sure to take photographs and put it in your booklet!

2. Research your Visual Element
Present some information about your chosen visual element. For example, if you choose colour, research and present information about the colour wheel and colour theory in your booklet.

3. Research your chosen artist
Find some information about the artist you have chosen to look at. Present this within your booklet (think about how you would present an artist research page in your art lessons). Find out what techniques and materials they use, their processes, images of other pieces of work.

Here's a list of local galleries you could visit: Cannock Chase sculpture trail, Unit 12 in Tixall, Hanley Museum and Art Gallery, New Art Gallery Walsall, Wolverhampton Art Gallery, or go further afield...
